Brief information about the project

Name of the project	Media SDG platform for education and training of journalists
Relevance	UNESCO acknowledges the fact that high-quality journalistic education contributes to the professional and ethical practice of journalism. Such journalism promotes democracy, dialogue, and development. Pluralistic mass media help citizens participate in public life and national development. Media operate in conditions of crises and emergencies and assist communities in responding to global issues such as climate change and pandemics. Mass media help combat the spread of misinformation and incitement to hatred, as well as promote gender equality both within the media themselves and through them.
Purpose	The project will contribute to the enhancement of journalism schools, including through the utilization of resources prepared by the Global Media and Information Literacy (MIL) Capacity Building Programme to upgrade journalism education, as well as the expansion of journalism schools' capabilities in the region through the implementation of localized high-quality journalism courses with consideration for gender aspects.
Objectives	- Establishment of a joint platform team - Development of a platform action plan - Template design for Massive Open Online Courses (MOOCs) - Development of MOOCs
Expected and achieved results	To launch and implement the Media Training and Education Platform for Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan, Uzbekistan, Armenia, Azerbaijan, and Georgia.
