

APPROVED
at a meeting of the Academic Council
of NJSC «Al-Farabi KazNU»
Protocol № 11 from 23.05.2025 y.

The program of the entrance exam for applicants to the PhD
for the group of educational programs
D063 - «POLITICAL SCIENCE AND CONFLICTOLOGY»

I. General Provisions

1. The program is drawn up in accordance with the Order of the Minister of Education and Science Republic of Kazakhstan dated October 31, 2018 No. 600 "On approval of the Model Rules admission to training in educational organizations implementing educational programs higher and postgraduate education" (hereinafter referred to as the Model Rules).

2. The entrance examination for doctoral studies consists of an interview, essay writing and an examination on the profile of a group of educational programs.

Blok	Points
1. Interview	30
2. Essay	20
3. Group profile exam educational program	50
Total/passable	100/75

3. The duration of the entrance exam is 3 hours 10 minutes, during which the applicant writes an essay and answers the electronic examination ticket. The interview is held at the university before the entrance exam.

II . Procedure for conducting the entrance examination

1. Applicants to doctoral studies in the group of educational programs "D063 - Political science and conflictology" write a problematic/thematic essay. The essay should be at least 250 words long.

The purpose of the essay is to determine the level of analytical and creative abilities, expressed in the ability to build one's own argumentation based on theoretical knowledge, social and personal experience.

Types of essays:

- a motivational essay disclosing the motivations for research activities;
- a scientific analytical essay substantiating the relevance and methodology of the planned research;
- a problematic/thematic essay reflecting various aspects of scientific knowledge in the subject area.

2. The electronic examination ticket consists of 3 questions.

Topics for exam preparation according to the profile of the educational program group

Discipline "Public Policy"

Topic. Fundamentals of Public Policy

Basic concepts, functions and methods of public policy. Objectives and priorities of public policy. Stages of public policy development. Mechanisms for forming public policy.

Topic. Politics and Management

Politics as a social phenomenon. Objectives, means and methods of politics. Features of the implementation of political leadership functions and their role in the organization of power. Public and state forms of political power. Political management in election campaigns and referendums. Improving Kazakhstan's parliamentarism.

Topic. Openness and transparency of politics

Functions of openness of politics. Components of openness in public administration. Aspects of ethical problems of public policy. Classical and modern concepts of democracy. Principles of assessing the effectiveness of state social policy. The main objectives of demographic and family policy in the Republic of Kazakhstan. State programs of the Republic of Kazakhstan in the field of healthcare.

Topic. Fundamentals of public administration in the economic sphere

The state in the economic sphere: essence, functions and main directions of its regulation. Stages of formation and evolution of public administration of the economy. The state as a guarantor of conditions for entrepreneurial activity. Main directions of state regulation of the economy. Activities of state bodies in ensuring the economic security of the country and the problem of its improvement. Activities of state bodies in combating economic crime. The nature and goals of interaction between the state and business. Politicization of entrepreneurial structures in a transition economy. Market and state mechanisms for regulating economic processes.

Topic. Efficiency of public administration

The problem of socio-economic efficiency of public administration activities. Criteria for the effectiveness of public administration. Evaluation of efficiency productivity. Development of criteria for evaluating productivity and efficiency. The human factor and its impact on the effectiveness of public administration. The impact of state bodies on productivity and effectiveness. Social efficiency of management: its structure, criteria, indicators.

Topic. Public administration in the Republic of Kazakhstan

The system of state bodies of the Republic of Kazakhstan. The state of the civil service in the Republic of Kazakhstan and the measures necessary for its improvement. Organizational principles and functions of public administration and their features in Kazakhstan. Models of local self-government. Reforms of legislative and executive power in the Republic of Kazakhstan. Constitutional reform in the Republic of Kazakhstan.

Discipline "Political Conflictology"

Topic. Introduction to the general theory of conflicts

Conflict as a social phenomenon of public life. Social contradictions and social conflicts. The structure of social conflict. Sources, causes of social conflict. Functions of social conflict in social development.

Topic. The main theoretical approaches to the study of conflicts

The problem of conflicts in the ancient world, the Middle Ages, modern and contemporary times. The emergence and development of conflictology as a special scientific discipline. Sociology of conflict by G. Simmel. "Positive-functional conflict" by L. Coser. Conflict model of society by R. Dahrendorf. General theory of conflict by K. Boulding. Marxist approach to conflict theory. General theory of conflict prevention and resolution. The main directions of foreign psychological schools of conflict research. Theory of human needs (J. Burton, J. Fisher, K. Mitchell). Modern theories of conflict. Research centers for the study of conflicts.

Topic. Political conflicts, their place in public life

Causes of political conflicts. Features of political conflicts. Subjects of political conflicts. Functions of political conflicts. The problem of institutionalization of political conflicts. Features of political conflicts in the post-Soviet space.

Topic. Typology of political conflicts

State-legal conflicts. Status-role conflicts. Conflicts of political cultures. Conflicts of interests. Value conflicts. Identification conflicts. Vertical and horizontal conflicts. Zero-sum conflicts and non-zero-sum conflicts. Institutionalized and non-institutionalized conflicts.

Topic. Conflicts in the public administration system

The nature of conflicts in public administration. Conflict between the legislative and executive branches of government. Political crisis. Government crisis. Parliamentary crisis. Constitutional crisis. Conflicts between different parts of the administrative apparatus. The main phases of political conflict resolution.

Topic. Ethnopolitical conflicts

The main trends of ethnopolitical processes in the modern world. Ethnic conflict: problems of definition and typology. The essence and main causes of ethnopolitical conflicts. Dynamics of ethnopolitical conflicts. Technologies for resolving ethnopolitical conflicts.

Topic. Dynamics of political conflicts

Factors in the dynamics of political conflicts. Stages and levels of political conflicts. Conflict situation. Stage of conflict development. Transition of a conflict from a latent state to an open confrontation of the parties. The process and conditions of escalation. De-escalation of the conflict. Stage of completion of the conflict. Consequences of a political conflict. Factors determining the severity and duration of a political conflict. Essential characteristics and types of political crisis. Political transit in the post-Soviet space.

Topic. Social tension as an indicator of conflict

Social functions of conflictology. Theories of social tension. Structure of social tension. Patterns of social tension. Methods for measuring social tension.

Topic. Conflicts in international relations

Theories of international relations on the causes of conflicts. Features of international conflicts. Practical significance of theories: political realism, idealism, neorealism, neoliberalism, structural theories. Low and high intensity conflicts, armed conflict, international terrorism. The role of UN structures in resolving international conflicts in the 21st century. The main nodes of international conflicts of the second half of the 20th century - early 21st century and approaches to their resolution.

Topic. Violence in political conflicts

Biogenetic explanation of human aggression (Spengler). Psychological direction (Z. Freud). Violence as a means of political dominance and supremacy. Structural violence. Cultural violence (J. Galtung). Mechanisms for limiting the use of violence in political conflicts.

Topic. Settlement and resolution of political conflicts

The concept of regulation and resolution of political conflicts. Institutionalization of political conflict as a condition for its regulation. Taking into account the balance of socio-political forces in the regulation of political conflicts. Compromise and consensus as methods of regulation and resolution of political conflicts. Interaction of the state and civil society in preventing the destructiveness of conflicts. The role of a third party in settling political conflicts. Conflict management technologies. The "conflict tree" method.

Topic. Negotiations

Negotiations as a way to resolve political conflicts. Preparation for negotiations. Stages of negotiations. Positional bargaining. Interest-based negotiations. Functions of negotiations. Negotiation strategies. Negotiation tactics. Multilateral negotiations. Improving mechanisms for resolving conflicts through negotiations. Formation of a negotiation culture as a basis for preventing and resolving conflicts.

Topic. Mediation as a form of third party participation

Mediation methods. Facilitative mediation. Advisory mediation. Mediation with elements of arbitration. Binding arbitration. Advisory arbitration. Arbitration of the "final offer". Limited arbitration. The role of international organizations in resolving political conflicts. Mediation activities of the Republic of Kazakhstan to strengthen peace, resolve conflict situations, and crisis phenomena

Topic. Ways and means of preventing political conflicts in Kazakhstan

The level of conflict in Kazakhstan: risks and potential threats. Methods of resolving conflicts in Kazakhstan. The role of the state and civil society in preventing destructive conflicts in Kazakhstan.

Discipline "Modern International Relations and Global Development"

Topic. International relations: essence, history of formation and main areas

The relationship between the categories "international relations", "international politics" and "world politics". The main areas of international activity, cooperation and confrontation. Theories of international conflicts. The problem of politicization of international relations. The essence and content of the dynamics of international relations at the present stage. The interdependence of domestic political and international political (micropolitical and macropolitical) processes.

Topic Development of the theory and methodology of research into international relations, global and regional systems

Theoretical approaches to the study of international relations, global and regional systems. Levels of analysis and methods for studying international relations. Classifications of international political relations. The main trends in modern international relations. Foreign policy activities of subjects of international relations in the field of national, regional and global security.

Topic The international sphere as a space for the implementation and protection of national interests

The concept of national (national-state) interest as a basic category of international relations. Fundamental national-state interests. National interests in the international sphere. Clash of national interests of states. Foreign experience in forming a foreign policy strategy based on national interests and identifying their priorities. Formation of national and state interests of modern Kazakhstan. The power concept of world politics and the possibilities of its application to analyze modern world processes.

Topic. Globalization and global challenges of human civilization, world politics

The origin and essence of global problems of our time. Parameters of manifestation of uneven globalization. Globalistics and the political sphere. Essential features of the modern stage of globalization. Post-industrialism and globalization. National and regional issues in the global dimension. Participation of Kazakhstan in globalization processes. Global consequences of major regional socio-political conflicts.

Topic. Geopolitics and geopolitical factors of world development

Geopolitics in international relations. The role of force in geopolitics. Geopolitical balance of power. Geopolitical maps of the world and reflection in them of the diversity of international relations. Geopolitical position and national interests of the Republic of Kazakhstan. History of development and features of modern geopolitical conflicts. Activities of political institutions in settling geopolitical conflicts. Technologies of settling geopolitical conflicts.

Topic. Possible models of the future world order

Trends of the formation of a new world order. Modern international order. Globalization and the new world order. Democratization of the world. Integration processes in the modern world. World order in the era of globalization. Separatism or the right of a nation to self-determination.

Topic. Global and regional organizations: goals, nature and forms of their activities

Global and regional international organizations in the modern system of international relations. Goals and means of activity of global and regional organizations. Types of regional organizations. Regional organizations of general competence. The role of international organizations in regulating political conflicts.

Topic. Foreign policy of individual states and their bloc organizations of various orientations

Basic principles of classification of modern states. Main directions of foreign policy of individual states and their bloc organizations. The main directions of foreign policy of the USA, Russia, European countries, China, Japan and Central Asian states. Factors of increasing threat of religious extremism and terrorism in the Middle East.

Topic. International activities of non-governmental organizations and financial and economic structures

Non-governmental organizations as international structures of civil society. Non-governmental organizations - new actors of international relations. Activities of international financial and economic institutions of the Bretton Woods system (IMF, WB, IBRD, etc.). The role of transnational corporations in the modern world.

Topic. Foreign policy activities of subjects of international relations in the field of national, regional and global security

Problems of national security in international relations. Systems of regional and global security. Activities of the Republic of Kazakhstan to strengthen peace and create a sustainable system of international security. Political system of the world and new participants in international relations. New challenges to national and international security. Challenges and threats to regional security. "Hybrid wars as factors of increasing instability in areas of rivalry between international powers.

Topic. International cooperation in combating international terrorism and ideological extremism

International terrorism as a socio-political phenomenon. Fusion of political and criminal terrorism. International terrorism as a global phenomenon. Theory and practice of modern extremism. International terrorist organizations. Problems of developing a legal framework for combating international terrorism. The main goals and objectives for preventing and eradicating international terrorism. Foreign experience in combating international terrorism and objective foundations for creating an anti-terrorist coalition. Growing threat of religious extremism and terrorism in the modern world.

Topic. Political and socio-economic determinants of disarmament policy

The arms race as a factor in aggravating international tension. The impact of economic militarization on socio-economic development processes. The problem of disarmament in the activities of the UN. The problem of disarmament in various regions of the world. Political and legal framework in the field of disarmament. Problems of military security and disarmament in various regions of the world. Prospects for disarmament policy. Kazakhstan's position on nuclear safety.

Topic. Dialogue of cultures in the context of the global information space

Forms and methods of information activities in the international arena. Information aggression and information war. Information expansion. Mass culture and national cultures in the information space. The Internet in world politics: forms and challenges. Interaction of cultures in the modern world. Problems of ensuring information security in the context of the global information space.

Topic. The Republic of Kazakhstan in the system of international relations

Foreign policy and diplomacy of the Republic of Kazakhstan. Multi-vector foreign policy of the Republic of Kazakhstan. New Kazakhstan in the new world: the concept of a multipolar world order and the main categories of security. The Constitution of the Republic of Kazakhstan on the rights of the subjects of the Republic of Kazakhstan and the conduct of international affairs. Subjects of the Republic of Kazakhstan in the current legislation regulating external relations. Mediation activities of the Republic of Kazakhstan to strengthen peace, resolve conflict situations, and crisis phenomena.

Topic. Kazakhstan in the modern world

Geopolitical realities of Kazakhstan's position in the modern world. Geostrategic interests of the Republic of Kazakhstan and the choice of its foreign policy strategy. The Eurasian Union as a geopolitical category. Prospects for using the economic potential of Kazakhstan. The Caspian Sea as a geopolitical problem. The position of the Caspian states on the division of the sea. Kazakhstan's participation in international and regional organizations: EurAsEC, SCO, CSTO, CICA.

Discipline "Research Methods in Political Science"

Topic. Specifics of research in social sciences

Levels of scientific methodology: philosophical, general scientific, concrete scientific. Methodology of scientific work, its levels: philosophical, general scientific, concrete scientific. "Hypothesis" and "research question" in scientific research. The essence of the concept "method". Classification of the main methods of scientific research. Operationalization: the relationship between theory and observation. Operational definitions. Measurement. Levels of measurement. Conceptualization and operationalization of theoretical constructs. Measurement error. Validity. Reliability. Interdisciplinary approach to scientific research. Features of the application of sociological research methods in political science The influence of information culture and values of modern society on the development of science.

Topic. Methodology of political science research

"Methodology", "method", "methodology" from the point of view of applied political research. Development of political science thought in the Republic of Kazakhstan. The state and prospects of political science research in the Republic of Kazakhstan. The concepts of "political theory", "methodology of political research".

Topic. Scientific approaches to the study of politics.

Instrumental approaches and modern methods of studying political life. Using a comparative approach in the study of political regimes. Differences between the structural-functional and systemic approaches in political science research. Cultural approach, its application in political research. Institutional and normative approaches. Historical approach, its application in political research. Using ethnology methods in political research. Observation method in political science research. Features of using mathematical methods in political science.

Topic. Applied political research.

Advantages of using qualitative methods in political research. Basic principles of processing and analyzing political science research data. Basic methods of collecting and processing data for political science research. Method of expert assessments in political science research. Features of using case studies in political research. The main stages and features of the technique of applying content analysis on the problems of political processes and phenomena. Quantitative and qualitative types of content analysis. Features of using cognitive mapping techniques in applied political research. The importance of using empirical methods in applied political research. Features of using modeling to analyze political events and phenomena.

Topic. Political analysis and forecasting

Fundamental, empirical and applied types of political analysis. Quantitative and qualitative methods of political analysis and forecasting. Application of the situational analysis method in studying political processes and phenomena. Application of indices (Democracy Index, Global Terrorism Index, etc.) for political science research. SWOT analysis in political science research. Event analysis in studying the political situation and processes. The Delphi method in political forecasting. Scenario (forecast) method. Main characteristics of applied analysis of text information on problems of political processes and phenomena. Types and methods of diagnosing political situations. Institutional analysis of political processes as a research method in political science. The modeling process in political science research. Examples of mathematical models of political behavior. Other types of models (measuring, descriptive, explanatory, criterion, predictive). Basic principles of the ethics of political analytics.

Topic. Systemic and structural-functional approaches in political science research

Systemic analysis as a complex method used in the science of politics. D. Easton is the founder of the systemic approach in political science. Stages of development of systemic analysis. Levels of systemic analysis, interdisciplinary nature. Fundamental dimensions of systemic analysis: structure, action, formation. Determination of inputs and outputs of the system. The role of structural elements in the political process, their interrelations and interactions.

Topic. Comparative approach

Comparative method and strategy of political science research. Main stages of comparative research. The problem of choosing the object of research. Types of comparative research: cross-national comparison; comparatively oriented description of individual cases; binary analysis; cross-cultural and cross-institutional comparisons. Levels of comparative analysis in political science. Formulating hypotheses in accordance with the level of comparative analysis. Features of conceptualization, empirical data processing. The importance of the comparative method in the development of political science.
