

Brief information about the project

| | |
|---------------------|---|
| Name of the project | AP14869709 Features of teaching foreign languages on the basis of national values |
| Relevance | <p>During globalization, it is important to preserve national values and deliver them to future generations. Because the deeper we instill the concept of “national code”, the more confident we will be that we will remain the nation of tomorrow. By promoting the national values of the Kazakh people in a foreign language, we can form an understanding of the role and significance in the world, get acquainted with the culture of English-speaking countries, respect for other cultures.</p> <p>There are many modern civilizations in the world, ideas between states, internal immunity, competition of cultural values, modern problems. In that case, we hope this project will ensure the integrity of the country, will contribute to the adaptation and development of national identity and cultural values.</p> |
| Purpose | <p>The aim is to form historical consciousness, patriotism, develop communication skills in a foreign language. Implementation of the President's Address “New Kazakhstan: the path of renewal and modernization” in foreign language lessons, increasing the global competitiveness of Kazakhstan education, teaching a foreign language based on national values.</p> |
| Objectives | <ul style="list-style-type: none"> – To teach students to give their energy and knowledge to the motherland, to respect the land, history, language, customs and national values. – Promotion and dissemination of local history knowledge and national values in a foreign language by students on the following principles: “New Kazakhstan: the path of renewal and modernization”, “Constructive public dialogue – the basis of stability and prosperity of Kazakhstan”, national idea “Mangilik el”, improving the teaching of a foreign language in general education organizations in conjunction with local history material through the “Tugan Zher” program as part of the implementation of the “Rukhani Zhangyru” program. – Education of the people to patriotism, devoted service to the motherland and protection of its interests while preserving the core of national identity. – To develop personal qualities; competitiveness, fluency in a foreign language, promotion of our national values in the world, contribution to the promotion of national tourism – To prepare students to modern global changes, keeping national essence. – Competitiveness, the ability to adequately represent the generation of the new era of the XXI century, digital literacy, excellent knowledge of foreign languages. – Expanding the horizon of national consciousness – Implementation of interdisciplinary integration – Formation and development of a healthy generation education system that has absorbed universal and national values, possessing modern knowledge. – Formation in young people the values of patriotism, desire for knowledge and hard work, unity and responsibility. – The ability to master students in a foreign language on the basis of national values and promote our national values to the world. – Organization of a structural system for teaching a foreign language under the project “Sacred places of Kazakhstan-geography of Sacred places of Kazakhstan” – Improving foreign language skills and functional literacy – Organization of online exhibitions, virtual excursions in a foreign and native languages |

| | |
|--------------------------------------|--|
| | <p>– Use multimedia resources and types of presentations to expand students' knowledge in the use of information and communication technologies, creative work on selected topics, to use of digital educational resources.</p> <p>Within the framework of the project, it is planned to develop and publish scientific expertise collection “Features of teaching foreign language based on national values”, terms dictionary in Russian, English, French “Traditions of Kazakh people”, collective monograph “Sacred places of Kazakhstan”. The first is research work “Features of teaching foreign language based on national values” and the second is "Foreign Language; two foreign languages, international relations, practical course based on national values for students studying in the field of translation". These books will be used in the training of specialists in foreign languages, international relations, translators and diplomats, and publish one article in Scopus and 3 articles in the journals approved by the Kazakhstan Committee.</p> |
| <p>Expected and achieved results</p> | <p>In this project, national values and their classification, features and methods of teaching a foreign language based on national values will be studied. The research team plans to publish the results of the research in international highly rated journals and conference materials, issue textbooks, a dictionary, a guide for tourists and monographs, obtain author's certificates, conduct virtual excursions to domestic and world online museums, develop and implement effective training programs based on the methodology of teaching a foreign language according to national values, organize a conference based on research results.</p> <p>Research papers published within the framework of project will have a positive impact on state programs, will be in demand in the field of science and education, contribute to conclusion of international treaties, development of respect for national values, cultivating pride for the world among young people, acquaintance of foreign tourists with rich land of Kazakhstan, will be in demand in translation studies, invaluable contribution to training of competitive foreign language specialists, interpreters as well to conducting academic policy and making a great contribution to development of Kazakhstani science at the world level.</p> <p>Use of research results obtained: when fulfilling the instructions of the President of the Republic of Kazakhstan “New Kazakhstan: the path of renewal and modernization”, “Constructive public dialogue is the basis of stability and prosperity of Kazakhstan”, national idea “Mangilik El”, when implementing the program “Rukhani zhangyru” improving foreign language teaching in educational institutions, using local history material through the program “Tugan Zher”, strategy “Kazakhstan-2050”, “The third modernization of Kazakhstan: global competitiveness”, in development programs of education and science of the Republic of Kazakhstan, and in other state programs for science development, as well as higher educational institutions of Kazakhstan can use the results in the field of foreign language teaching, international relations, interpreter training.</p> <p>Research papers published as a project result are an indispensable tool for university students, teachers, administration staff, citizens of embassy service, persons engaged in international relations. Culture of foreign communication provides reliable information about which cultural codes to use when shaping international relations. In addition, they are useful for specialists in various branches of science, researchers of anthropology, linguistics, culture, who carry out activities in the field of public service.</p> <p>The final result of the project is implementation of strategies necessary for training of specialists-diplomats-interpreters of a new format with development of modern information technology competencies, which contribute to their rapid adaptation to the requirements of the world labor market.</p> |
