

Brief information about the project

Name of the project	AP14870596 «Problems of legal regulation of rational use and protection of pastoral ecosystems» (state registration number 0122PK00684)
Relevance	The relevance of the chosen topic is due to the need to study theoretical and practical problems of legal regulation of the use and protection of pastures, preservation of the ecological integrity of pasture ecosystems in the environment, sustainable development of animal husbandry in the country. These issues have not been investigated in terms of their significance for the implementation of the policy of transition to a «green» economy in Kazakhstan. It is necessary to analyze this problem from the perspective of fulfilling the international obligations of the Republic of Kazakhstan in the field of preventing desertification and degradation of pastures, preserving their ecosystem, the activities of state bodies and civil society institutions. The project is aimed at developing specific recommendations on amendments and additions to the legislation of the Republic of Kazakhstan on the regulation of pasture ecosystems, as well as the development of new draft regulatory legal acts.
Purpose	The aim of the project is a comprehensive study of the legal problems of rational use and protection of pasture ecosystems in the transition to a «green» economy, the development of scientifically sound theoretical provisions and practical recommendations for the effective implementation of organizational and legal reforms in the field of use and protection of pasture resources, considering the international obligations of the Republic of Kazakhstan.
Objectives	<ol style="list-style-type: none">1. To study the legal nature of pastoral ecosystems, to conduct a conceptual analysis of the legal principles of their rational use and protection with an account of environmental requirements for the use of their natural resources and the impact on the state of the environment. Expected result: theoretical provisions and an analytical note with the justification for ensuring the sustainable development of the use and protection of pasture ecosystems and animal husbandry have been developed, and scientific articles will be prepared.2. Analysis of the legal nature of pastures, pasture infrastructure, as an object of rights to land and property, and the legal regime of pasture lands, considering their belonging to a particular category of land and the permitted order of their use. Expected result: A draft National Action Plan for the development of animal husbandry and pasture use has been prepared, recommendations for improving civil and land legislation will be prepared.3. Study of legal problems of the economic mechanism of rational use and protection of pastoral ecosystems in the

Republic of Kazakhstan and foreign countries. Expected result: prepared recommendations for the regulation of the payment system for the use and protection of pastureland, and proposals for the improvement of environmental and tax legislation.

4. Analysis of the activities of state and other bodies responsible for the implementation of the Plan for the management of pastoralists and their use, analysis of the legal mechanism for the participation of pastoralists in its implementation. Expected result: practical recommendations for improving the activities of state and other bodies, as well as procedures for the participation of pasture users in the implementation of the Pasture Management Plan.

5. Study of the activities of state bodies in the field of regulation of the relations under consideration, including the activities of law enforcement and judicial bodies in the field of resolving social conflicts and land disputes, ensuring the rights of citizens to access information about the condition and conditions of use of pastures. Expected result: recommendations have been prepared to improve the activities of state bodies, proposals for amendments and additions to the Regulatory Resolution of the Supreme Court of the Republic of Kazakhstan dated July 16, 2007 No. 6. "On some issues of application of land legislation by courts" and in the Regulatory Resolution of the Supreme Court of the Republic of Kazakhstan dated November 25, 2016 No. 8 "On some issues of application by courts of environmental legislation of the Republic of Kazakhstan in civil cases".

6. Conducting a comparative legal analysis of national and foreign legislation, international legal acts in the field of combating desertification and degradation of pastures and livestock development. Expected result: drafts of the Law of the Republic of Kazakhstan "On amendments and additions to the Land Code of the Republic of Kazakhstan, the Environmental Code of the Republic of Kazakhstan, the Law of the Republic of Kazakhstan "On Pastures"", the draft Law of the Republic of Kazakhstan "On Animal Husbandry" will be developed.

7. Publication of scientific articles in foreign peer-reviewed scientific journals, monographs, textbooks. Expected results: The results will be reflected in three articles and (or) reviews in peer-reviewed foreign and (or) domestic publications recommended by the Committee for Control in the Field of Education and Science of the Ministry of Education and Science of the Republic of Kazakhstan. 2 (two) articles or reviews will be published in a peer-reviewed scientific publication indexed in the Social Science Citation Index or the Arts and Humanities Citation Index of the Web of Science database and (or) having a CiteScore percentile in the Scopus database of at least 35

	(thirty-five). Two monographs and two textbooks will be prepared and published.
Expected and achieved results	<p>Within the framework of the project, theoretical provisions and an analytical note with the justification for ensuring the sustainable development of the use and protection of pasture ecosystems have been developed, scientific articles have been prepared; A draft National Action Plan for the development of animal husbandry and pasture use has been prepared, recommendations for improving civil and land legislation have been prepared; prepared recommendations for the regulation of the payment system for the use and protection of pastureland, and proposals for the improvement of environmental and tax legislation; practical recommendations for improving the activities of state and other bodies, as well as procedures for the participation of pasture users in the implementation of the Pasture Management Plan; recommendations have been prepared to improve the activities of state bodies, proposals for amendments and additions to the Regulatory Resolution of the Supreme Court of the Republic of Kazakhstan dated July 16, 2007 No. 6. "On some issues of application of land legislation by courts" and in the Regulatory Resolution of the Supreme Court of the Republic of Kazakhstan dated November 25, 2016 No. 8 "On some issues of application by courts of environmental legislation of the Republic of Kazakhstan in civil cases"; On amendments and additions to the Land Code of the Republic of Kazakhstan, the Environmental Code of the Republic of Kazakhstan, the Law of the Republic of Kazakhstan "On Pastures", the draft Law of the Republic of Kazakhstan "On Animal Husbandry" have been developed.</p> <p>According to the results of the project, three articles and (or) reviews will be published in peer-reviewed foreign and (or) domestic publications recommended by the Committee for Control in the Field of Education and Science of the Ministry of Education and Science of the Republic of Kazakhstan. 1 (one) article or review will be published in a peer-reviewed scientific publication indexed in the Social Science Citation Index or the Arts and Humanities Citation Index of the Web of Science database and (or) having a CiteScore percentile in the Scopus database of at least 35 (thirty-five). 2 (two) monographs and two (two) textbooks will be published.</p>
