

## Brief information about the project

Name of the project	AP09260228 “Strengthening state regulation of the social sphere of the Republic of Kazakhstan in the post-pandemic period” (0121PK00418)
Relevance	<p>Problems in healthcare, education, housing, communal services, the labor market, and social security for vulnerable segments of the population, which were exposed by the pandemic, determined the relevance of the topic of this project. The pandemic has again shown that the government is unprepared for unexpected force majeure and crisis circumstances.</p> <p>The scientific novelty of the topic of this project lies in the analysis and assessment of the consequences of the pandemic on the livelihoods of citizens of the Republic of Kazakhstan, on their standard of living, on meeting the needs of the country's population for the goods of life and obtaining quality services in the field of education, labor, social protection, and health care in the medium term. During the implementation of the project, it is planned to develop measures to strengthen state regulation of the social sphere to neutralize the pandemic's negative consequences on the reproduction of human capital in the Republic of Kazakhstan, taking into account the best practices of developed countries.</p>
Purpose	Development of proposals to strengthen state regulation of the development of education, healthcare, employment, and social security of the population in the Republic of Kazakhstan in the post-pandemic period.
Objectives	<ul style="list-style-type: none"><li>- conducting a literary review on the topic under study, systematization, and clarification of basic concepts in the field of the social sphere, studying modern requirements for the social development of society, analysis of regulatory documents of the Republic of Kazakhstan and international organizations in the field of the topic under study;</li><li>- studying the experience of developed foreign countries in the field of state regulation of the social sphere, determining the place and role in the system of the international community, in the development of national and world science, consideration of the leading global trends;</li><li>- the study of existing approaches and methods for quantitative and qualitative assessment of the impact of the socio-economic consequences of the pandemic on the development of the state, selection, and adaptation of the most suitable methodology for the conditions of Kazakhstan;</li><li>- study of the current state of the social sphere of the Republic of Kazakhstan, analysis of the dynamics of statistical data of the Committee on Statistics of the</li></ul>

	<p>Ministry of National Economy of the Republic of Kazakhstan for all sub-sectors of the social sphere;</p> <ul style="list-style-type: none"> <li>- assessing the results of large-scale measures to support population groups most vulnerable to the threat of coronavirus infection;</li> <li>- assessing the scale of economic losses from the consequences of the pandemic, quarantine, and self-isolation of the population, which will affect the standard of living of the population of the Republic of Kazakhstan, employment and health of the population and its size;</li> <li>- identification and development of proposals to strengthen state regulation of the social sphere, identifying the area of state responsibility;</li> <li>- development of a mechanism for state regulation of the social sphere, taking into account the conditions of a transforming economy, formulation of practical recommendations for strengthening state regulation of the social sphere in the post-pandemic period, intended for authorized government agencies of the Republic of Kazakhstan;</li> <li>- forecasting the socio-economic development of Kazakhstan and determining its prospects within the framework of a project study, drawing up development scenarios.</li> </ul>
<p>Expected and achieved results</p>	<ol style="list-style-type: none"> <li>1. An extensive literature review on the topic under study was carried out, basic concepts in the field of the social sphere were systematized and clarified, modern requirements for the social development of society were studied, an analysis of regulatory documents of the Republic of Kazakhstan and international organizations in the field of the topic under study was carried out;</li> <li>2. The experience of developed foreign countries in the field of state regulation of the social sphere has been studied, and its place and role in the system of the international community, in the development of national and world science, have been determined, the leading global trends have been considered;</li> <li>3. Existing approaches and methods for quantitative and qualitative assessment of the socio-economic consequences of the pandemic on the development of the state have been studied, and the choice of the most suitable methodology for the conditions of Kazakhstan has been justified;</li> <li>4. The current state of the social sphere of the Republic of Kazakhstan is studied, a general description is presented, and the dynamics of statistical data of the Committee on Statistics of the Ministry of National Economy of the Republic of Kazakhstan for all sub-sectors of the social sphere is analyzed;</li> <li>5. The results of large-scale measures to support population groups most vulnerable to the threat of a pandemic were assessed;</li> </ol>

	<p>6. The scale and economic losses from the consequences of quarantine and self-isolation of the population, which will affect the standard of living of the population, employment, and health of the population and its numbers, are assessed;</p> <p>7. Proposals to strengthen state regulation of the social sphere have been identified and developed, and areas of state responsibility have been determined;</p> <p>8. A mechanism for state regulation of the social sphere has been developed, taking into account the conditions of the transforming economy; recommendations have been formed for strengthening state regulation of the social sphere in the post-pandemic period, intended for authorized government agencies;</p> <p>9. A forecast of the socio-economic development of Kazakhstan was carried out to determine prospects and draw up development scenarios.</p>
